**Notes to editors About The Cult House:**

The Cult House is a large project with many segments all arts related. The Cult House started its collective on Facebook, Instagram Twitter, Google+, Pinterest and LinkedIn, where presents daily tips on several art topics and use all them to help on the promotion and network to get more visibility for our artists. The website went live on April 2014 and since then The Cult House is increasing their International online artist collective. The aim of the collective is to boost visibility online as much as possible for both parts, for the company and more importantly for the artists within the online gallery, maximizing all our connections and advertising the artists' profiles as well as important events.
