Life Beyond – Head & Neck Cancer Support is a new project and a future charity created by **Jose Barroso** and **Andre Davantel**, two highly skilled health care professionals working with Head and Neck Oncology support for many years which aim to raise funds and awareness about Head & Neck cancer, stimulate prevention and to support patients and staff with training, research and specialised information.

The Cult House It is a creative group connecting people in various creative disciplines (arts, craft, design, writing, music and performance) with commercial and social events.

The aim of the collective is to boost visibility online as much as possible for the company projects and more importantly for the artists within the online gallery, maximizing all our connections and advertising the artists' profiles as well as important events.
